

SMARTER POOLS.
BETTER PERFORMANCE.
LOWER COSTS.

Variable speed pumps are one of the most important upgrades you can make to your pool. They deliver powerful performance while using far less energy—saving you money and extending the life of your entire system.

DID YOU KNOW?

Pumps account for up to 80% of a pool's energy consumption. A variable speed pump can reduce energy use by up to **80%**.

VARIABLE SPEED PUMPS EXPLAINED

EFFICIENCY. PERFORMANCE. QUIET. RELIABLE.

A variable speed pump gives you complete control over your pool's circulation—and your energy bill.

WHAT IS A VARIABLE SPEED PUMP?

Unlike single-speed pumps that run at full power all the time, variable speed pumps allow you to **runtime** to match your pool's needs.

This means better circulation, quieter operation, and significant energy savings.

THE ISLAND TIME ADVANTAGE

ENERGY SAVINGS

Uses up to 80% less energy than traditional single-speed pumps.

ULTRA QUIET

Runs whisper quiet so you can enjoy peace and relaxation around your pool.

SUPERIOR CIRCULATION

Consistent low speed circulation keeps water cleaner, clearer, and healthier.

CUSTOMIZABLE SCHEDULES

Program speeds for different tasks and times of day to match your pool's needs.

EXTENDS EQUIPMENT LIFE

Reduced wear and tear means longer life for your pump, filter, and entire system.

PERFECT SPEEDS FOR EVERY JOB

LOW SPEED (1200–1800 RPM)
Ideal for everyday filtration and energy savings. Keeps water clean and quiet 24/7.

MEDIUM SPEED (1800–2400 RPM)
Great for running water features, spa spillovers, or heating your pool.

HIGH SPEED (2400–3450 RPM)
Perfect for vacuuming, backwashing, or heavy debris removal.

BUILT-IN TIME CLOCK
Set it and forget it—your pump automatically adjusts to your custom schedule.

THE BOTTOM LINE

A variable speed pump is an investment that pays for itself through:

- ✓ Lower energy bills
- ✓ Better water quality
- ✓ Quieter operation
- ✓ Longer equipment life
- ✓ Increased comfort & enjoyment

Smart today.
SAVINGS TOMORROW.

IS IT TIME TO UPGRADE?

If your pump is 5+ years old, loud, or running all the time on high speed, a variable speed pump can make a huge difference.

Ask us how we can evaluate your system and recommend the perfect solution for your pool.
